

2018 BASIC BRAND GUIDELINES

ORIGIN

Our name is inspired by the idea of setting things in motion, by the technology and information that keeps the world moving forward. Our identity represents the place where ideas and perspectives are shared, and comes to life as a window onto great content.

THE LOGO

The logo exists in three different formats. The logo lockups, consisting of the mark and the logotype, are fixed and should not be separated. The logomark exists on it's own as the app icon, share and follow button.

The following pages outline usage guidelines for each of these formats, including sizing, color, minimum clear space and application do's and don'ts.

1 Horizontal Lockup

This is the primary logo and should be used above all other formats.

2 Vertical Logo

The vertical lockup is reserved solely for when horizontal space is limited in your artwork.

3 Logomark

The logomark should only be used by external parties as a follow or share button. For all other use cases, please use our full logo.

THE PALETTE

Our palette is pretty simple, the Flipboard red, the Flipboard black, and lots of whitespace.

Red is our primary brand color, it is used sparingly within the product to allow content to take center stage, and more freely outside of the product to create more energetic communications.

Our black is a rich black composition, inspired by the classic inks of iconic printed magazines and newspapers. It is used primarily in headlines and body copy.
